

NEW CANDIDATES ARE EXPECTED

Former Senator J. C. S. Blackburn is Prominently Mentioned For Race For Governorship.

FRANKFORT, Ky., Nov. 15.—New candidates are expected to enter the race for the Democratic nomination for Governor in this State soon, for it is talked about that many veterans who have been battling for Democracy for years and have been forced into private life, are being urged to get busy.

Former Senator J. C. S. Blackburn, of Versailles, is one of the "vets" who is being groomed by his friends. Blackburn recently made a trip to Louisville, and while there made a speech to his admirers in which he said that he was not too old to be of service to his party, and that he would answer the call to enter the battle at any time.

In other words, Blackburn said if he was given the Democratic nomination for Governor he would accept it and would make a winning race. Since the noise from this speech spread over the State, especially the Blue Grass section, there has been much favorable comment, and the echoes have been pleasing to the supporters of Blackburn.

The name of Rogers Clay, Commissioner of the Court of Appeals, is again being brought forward as a compromise candidate in case there is too bitter or lively a wrangle between the forces of Congressman Ben Johnson and former Senator and Governor James B. McCreary.

VOUCHES FOR SERIES OF SPIRIT MESSAGES

Claims First Communication Revealed that Death was only a Peaceful Sleep.

BOSTON, November 15.—M. S. Ayer, head of the large grocery firm of M. S. Ayer & Co., and an intimate friend of the late Prof. William James, of Harvard, vouches for a series of spirit messages received from the dead educator and psychologist. There are four of the messages, dated 17, 24 and 31 and November 7.

The first message says: "And this is death, only to fall asleep, only to awaken in the morning and to know that all is well. I am not dead, only arisen."

The second tells of the author's awe of death as a child and the realization in later years that death was "only the passing of the old into the new." "I was hardly conscious when the change took place," the message reads. "When I awakened I found myself standing beside the old body which had served me faithfully and well. Suddenly I became conscious that my body was surrounded by many of my friends. Daring a little nearer to that which was so like, and yet so unlike, myself as I had been, I called them by name and stretched forth my hand and touched them. But they heeded not."

The third message tells of the realization that "an impenetrable barrier separated me from my loved ones on earth. I seemed to be transported through space and I lost consciousness, to awaken in a land so different and yet so familiar to the one which I had so lately left. Though I was dead I was still alive."

HEALTH BROKEN AND COURAGE FAILING

Celebrated Character of Early Days of the Northwest is Admitted to Soldiers' Home.

LOS ANGELES, Cal., Nov. 15.—"Sure Shot Johnny" Petrie, one of the most celebrated characters of the early days of the Northwest, has reached the end of his rope, is broken in health and pocket and was recently admitted to the Soldiers' Home at Sawtelle. Petrie served as Deputy United States Marshal in the Dakotas and Montana and has over 1,000 captures of cattle rustlers and other criminals to his credit.

In "Langford of the Three Bars," a recent novel, Petrie figures as Marshal Johnson. He served through the

Civil War with Illinois regiments and then went West. One of his first exploits was the capture of the notorious "Jack" Sully, a desperado of the Missouri River section.

Twenty-three years later Petrie led the posse that killed Sully, then operating in Montana. He served, all told, more than 40 years as a peace officer. His record includes acts for which he received commendation from Governors of territories and States and twice from the President of the United States as head of the army.

SERIOUS RESULT OF JOY RIDE

One Is Killed and Several Are Injured By Overturning of Car in Ohio.

CHILLICOTTE, OHIO, Nov. 15.—One killed and several injured was the result of a joy ride at an early hour Sunday morning near Massieville, while a party of seven were riding to the city.

Samuel Frad was instantly killed, the car falling on his neck and breaking it. Drew Robinson is unconscious. Jesse Frad's arm was broken and George Greivis suffered a broken leg.

The car skidded, struck a rut and turned completely over. Samuel Frad was 21 years old. His body was removed to his home at Newark.

CULMINATION OF ROMANCE

Extending Over Period of Two Years is Elopement of Descendants of Illustrious Ancestors.

LOS ANGELES, Cal., Nov. 15.—A pretty romance involving Miriam Nesbitt Caroway-Enders, the great-granddaughter of Andrew Jackson, and Thomas Hendricks Morgan, Jr., grandnephew of Thomas Hendricks, Vice President of the United States under Grover Cleveland, culminated in a runaway marriage at Santa Ana, the local Gretna Green.

The descendant of President Jackson is 17 years old and is the daughter of Mrs. Carlos S. Hardy, of this city, and the grand-nephew of the former Vice President is the son of Mr. Thomas Hendricks Morgan, of Los Angeles. He is just 21.

The young couple have been devoted for nearly two years and have been engaged for some time, but the parents of the young people objected to the marriage on account of the youth of the couple. Last Thursday they took matters into their own hands and went to Santa Ana. The ceremony was performed by Justice Smithwick of Santa Ana.

SHOT DOWN BY UNKNOWN HUNTER

Doctors Were Summoned But Injured Man Died Before Their Arrival.

MELLEN, Wis., Nov. 15.—Louis Oleson, of Abbottsford, Wis., who had on a red coat and cap, was killed five miles from Mellen Sunday while hunting deer. He was shot by an unknown hunter. The ball entered the right lung and he lived an hour.

Oleson was walking along a road near Penokee, when he saw a man come out of the woods and point a gun at him. He threw up his hands and shouted, but the hunter shot him. The unknown hunter ran as soon as he discovered his mistake. Oleson yelled and his companions a half mile away heard him and came to his rescue.

Doctors were summoned, but he died before they arrived. Sheriff Kleinstreiber and his bloodhounds are on the scene, and together with a posse are trying to locate the hunter. This is the second man killed in this vicinity this season.

Oleson is City Clerk of Abbottsford, a man with a family, and has hunted in this vicinity for the past six years.

PRES. USSERY IS RE-CHOSEN

Directors of Blue Grass League Hold Business Meeting at Elks' Building in Paris.

PARIS, Ky., Nov. 15.—President W. C. USSERY of the Blue Grass League of base ball clubs was unanimously re-elected in spite of himself Monday at the annual meeting of the directors, which was convened in the parlors of the Elks building at 11 o'clock a. m.

The meeting was called to order by President USSERY, who submitted his report for the season of 1910, which was audited by a committee consisting of J. Q. Stewart of Winchester, T. A. Sheets, of Lexington and James H. Fitzgerald, of Maysville.

President USSERY in submitting his report, reviewed the season of 1910, at length and pointed out what he considered the pitfalls that threatened the success of the league from both a financial and harmonious standpoint. He said that the forthcoming year of organized base ball in the Blue Grass would prove to be the crisis, as the feeling of sentiment which has heretofore largely prevailed was gradually giving way to a more practical and business-like attitude. He said that the degree of success would come to each individual club and to them all collectively must come through the sale of tickets and of other means of money-raising methods.

Tells of the Difficulties.

President USSERY told of the many difficulties under which he had labored and especially the unfavorable comment upon his official actions. He said that he had done his best impartially for whatever seemed best for the interests of the league and for clean baseball sport, and announced that he was not a candidate for re-election and hoped that the directors could agree upon a man that would be acceptable to the owners of each club and the fans throughout the circuit.

Judge J. J. Greenleaf, president of the Richmond Club, then offered the following resolution which was unanimously carried: "Resolved, That the directors of the Blue Grass League of Baseball Clubs tender to President USSERY their thanks for his services and their confidence in his ability and fairness."

Auditing Committee's Report.

The auditing committee then brought in the following signed report: "We, the committee, have examined the financial report of President W. C. USSERY and have found it correct and the records well kept. (Signed) J. Q. STEWART, T. A. SHEETS, JAMES H. FITZGERALD."

The league then took up for consideration the question of a salary limit and upon motion of J. Q. Stewart, seconded by President J. W. Bacon of the Paris Club, the salary limit of each club, including that of the manager was fixed at \$1,000 a month. An amendment fixing the limit at \$900 per month, with the manager's salary included, was voted down and the original motion was adopted 4 to 1. A motion was adopted requiring the president, treasurer and secretary of each club, within three days after the payment of salaries on the first and fifteenth of each month, to send a sworn statement to the president of the league showing the amount of salaries paid club members.

President Will Investigate.

The president was empowered to institute an investigation of any violation of this rule upon the part of any club, and to see to it that every club in the league lived up to the requirement and that, if any club was found guilty of a violation of its terms, a fine of \$25 was to be imposed for each offense.

A motion was also adopted limiting the number of players, including the manager of each team, to twelve men, effective fifteen days after the season opens.

Considerable discussion ensued when the 1911 schedule came up and it was finally determined to limit the playing season to 100 games commencing Thursday, May 18, and closing on Labor Day, Monday, September 4.

This however may be changed, as it is desired to play the opening game in Lexington the meet of the Knights Templar convocation, which will bring thousands of visitors to Lexington.

Right to Suspend Players.

A motion was also carried that any club in the league, at any time may suspend as many as two players for either illness or accidents for as many as fifteen days without pay.

A motion was offered to put every club upon an equitable basis by requiring any player on the team who might be a part owner of the club to sign a salary contract equal to not less than one-twelfth of the total amount allowed for salaries. This was later amended to read \$75 per month and was finally withdrawn, upon a statement by Mr. Yancey of the Lexington Club, that the minutes show that such a player was not to receive a salary of less than \$50 per month.

Stewart Nominates USSERY.

Mr. J. Q. Stewart of the Winchester club then offered a motion placing in nomination the name of President W. C. USSERY for re-election. The latter attempted to interpose an objection, when he was declared out of order and the vote being put by Mr. Stewart carried unanimously.

A discussion ensued as to the authority of the president in such matters as the employing and dismissing of umpires, the enforcing of the rule regarding the salary limit, the refunding of expenses of the visiting team at holiday games where the receipts were pooled and other matters of importance to the league during the playing season which had to be acted upon immediately. Full power was given the president in all those matters.

Notes of the Meeting.

Frankfort was not represented at the meeting either in person or by proxy.

Under the new schedule Lexington will play every Sunday at home having a total of 16 Sunday games.

Every team in the league will play Sunday ball except Richmond, and on those Sundays when Paris, Winchester, Frankfort and Maysville are looking for home, Richmond will appear on the Lexington diamond which will give the Richmond team several more Sunday games with Lexington than with any other club in the league.

Under the by-laws adopted the powers of President USSERY were greatly enlarged. He will have full control of the umpires and can effectively enforce the salary limit clause which representatives of every club have admitted were grossly violated last year.

Neither directly nor indirectly can a player receive a salary more than that at which he is signed to play.

At the meeting Monday, Lexington was represented by Hogan Yancey and T. A. Sheets, Winchester by J. Q. Stewart, Richmond by Judge J. J. Greenleaf, Maysville by James W. Fitzgerald and Paris by J. W. Bacon.

President USSERY'S Report.

The report of President USSERY showed that every club in the league lost money last year, the drafting of two players from the Paris and Lexington teams alone pulling them up to near something like breaking even.

The sale of Toney by the Winchester club helped that club partially out of a deep hole.

President USSERY handled more than \$5,000 last year all of which was accounted for, vouchers properly receipted showing where every cent of the expenditure went.

A balance was paid former president George I. Hammond of \$50; postage cost \$34.80; telephone and telegraph messages cost \$88.59, while umpires received a total of \$2,074.81 for salaries and traveling expenses.

The remaining was paid to clubs, the National Association, for franchise and players of the Shelbyville team and office and other incidental expenses.

Directors Are Dinner Guests.

President USSERY announced officially that Paris was the pennant for the 1909 season and that at the next meeting of the league the handsome trophy would be presented to the club.

The directors of the league were entertained at dinner at the Waldorf Hotel, by the officers of the Paris Club.

James H. Fitzgerald, who represented the Maysville Club, is a prominent harness manufacturer of the River City. He is brim-full of baseball enthusiasm and says his team for next year will be composed of all new men who are giants in stature. Several of the players range from 6 to 6½ feet in height, he says.

At the next meeting of the league, which will be held in the early spring in Lexington, President USSERY will submit a schedule for next year's season subject to the approval of the directors.

The receipts of the holiday game next season will be pooled, the visiting clubs being allowed their expenses before a division of the receipts is made.

LEADER OF BANDIT GANG IS KILLED

Died Trying to Tell Nurse Something Which He Was Unable to Reveal.

CHICAGO, Nov. 14.—Death sealed the lips of the unidentified leader of the bandit gang at the county hospital who held up the roadhouse at Cicero and who shot down and killed Policeman Kane and was in turn shot by Policeman Kahanauksi. It was reported the dying robber had muttered the words "Pittsburg-Schoenerville-Victor Bank" just before he expired. At Schoenerville the Victor Bank was held up nine months ago and the manager and cashier were killed.

As the bandit died the police were searching along the banks of the Des Plaines River for a dugout, where they believed the other members of the band were hiding, waiting to give them battle. Twenty-five picked shots of the Chicago police department were aiding the Cicero police in beating the woods along the river for the murderers.

The bandit leader died trying to tell something. Just before he expired he beckoned for his nurse. She ran to him, but he died before his lips could frame the words he intended to speak.

IN THE LEAGUE ANOTHER YEAR

Winchester Will have Club and Sunday Ball Will Be Played Here. Fans Enthusiastic.

From the report of the meeting of the directors of the Blue Grass League in Paris Monday it is evident that Winchester will remain in the league another season. Messrs. J. Q. Stewart and Henry Phillips represented the local club at the meeting.

At the close of the past season rumors were afloat that the local franchise would be sold to the best bidder but the plans arranged at the meeting Monday proves beyond a doubt that Winchester will have a Club, and also that Sunday ball will be played here. Every town in the league with the exception of Richmond will play Sunday ball. Lexington will play at home every Sunday, but the other clubs will exchange dates. This news pleased the fans and Tuesday morning preparations for next season and the probable outcome were being discussed on the streets and in places of business.

NEW PATENT IS BIG SUCCESS

Manufacturers Having Charge of the Making of Robe Racks Are Behind in Filling Orders.

Messrs. Lavan & Cornell of Paris, were here this week for the purpose of purchasing one of the new patent robe racks of Mr. J. M. Woods. The new patent of Mr. Woods is meeting with favor and the manufacturer having the making of them is far behind with the orders.

Mr. Woods is now working on another patent which will be a great seller. It is a small contrivance for carrying accounts. The machine is compact and a merchant or business man can carry the accounts on the rolls of a year's business and yet not be burdened with a heavy account book, and is so small that it can be carried in the vest pocket.

THE TAFT ADMINISTRATION.

Mr. Roosevelt and the Progressive
Republican Senators have made a
fight for the people, not against the
reactionaries, but against the con-
solidated financial, commercial and
industrial organizations of the coun-
try, a fight against the supremacy of
the individual in his individual rights.The New Nationalism is the last
safeguard of individualism.The Progressives have control of
the Republican party, not absolute,
not unquestioned. The victory has
not yet been won. The Democratic
party is gradually passing under the
dominion of the reactionaries in poli-
tics and in business; passing under
the dominion of Murphy and Dix,
and Morgan and Guggenheim, the
Standard Oil Company and the Steel
Trust, the Lumber Trust and the To-
bacco Trust.The Progressive Democrats are
passing out of the party lines into
the camp of the Insurgents or Pro-
gressive Republicans.The question of the hour is wheth-
er the administration of Mr. Taft is
to be progressive or reactionary.A year ago it was reactionary.
Today it has had a new inspiration.
It has heard from the people. It is
trying to place itself in accord with
the people. It succeeds it will lead
the people to victory.If it fail or if it be disloyal to the
principles for which the party stands
in its platform, and stands today be-
cause of the Insurgents, it will be
ground to powder with Tammany
Hall and a Democratic party disloyal
to the first principles of a real Dem-
ocracy.—Evening Post.

KEEPING IN PUBLIC EYE.

The necessity for constant and
persistent advertising is well illus-
trated by an incident recently cited
in one of the trade journals. In
conversation with a friend a man men-
tioned his need for a certain article
for his personal use, and expressed
some doubt as to what particular
make he should buy. "Why don't
you get So-and-So's?" he was asked.
He thought a moment and then said:
"I guess they must have gone out of
business; I don't see their advertis-
ing any more."

natural one. The merchant of today

shown that there is no surer method
of reaching the public than through
the advertising columns of a clean,
progressive newspaper, which is a

thousands of families with the desire
and the ability to buy.The question is not so much, "Can
I afford to advertise?" as "Can I af-
ford not to advertise?"—Commercial

AT GEORGETOWNHalf a Business Block is Wrecked By
Flames Which Had Gained Head-
way Before Being Discovered.GEORGETOWN, Ky., Nov. 15.—
The most disastrous fire that has
visited the business section of
Georgetown for more than 30 years
was that of Monday morning when
damage to the amount of \$20,000 was
done, covered by only partial insur-
ance.Half a business block was wreck-
ed and for quite a while there seemed
danger of the whole block, including
the five-story \$10,000 Lancaster Ho-
tel now nearing completion, being
wiped out by the flames.When the night police discovered
the fire, which originated in the rear
of the big frame livery stable of Mar-
row Simpson, the roof was beginning
to fall in. So much headway had
been gained that, considering the
great length of the stable, and the
manner in which its wings flanked
the surrounding buildings, it was a
practical impossibility to check the
fire.

College Etiquette.

A college girl must, of course, first of
all develop her mind as far as possible,
but this does not mean that she must
or may forget the rules of etiquette
laid down for all well bred girls,
whether at home, at college, in busi-
ness or in the social world.She must talk in low tones. She must
be courteous to all around her, respect-
ful to those who are older and consid-
erate of those who are beneath her so-
cially. She must learn to converse in an
interesting manner without assert-
ing her own opinions or trying in any
way to show a superior knowledge,
even upon subjects which she has
made her special study.She must learn to act the part of
the graceful, courteous and interesting
hostess and also the charming and
well read guest. At all times she must
be the well bred, dignified, courteous
as well as interesting and clever col-
lege girl.In the social world there is a tact
understanding that we shall all be
agreeable to one another, always put-
ting the attractive things of life on
the outside and keeping our private
woes to ourselves.This is a rule that none can afford to
overlook—old or young, society girl,
college girl or business girl.

Table Etiquette.

The little difference between lifting
a dish and showing it along makes
the big difference between a sloven
and the punctilious observer of good
manners at the table and has an effect
in marring the harmony of the table,
whereby in congenialness and table
enjoyment all are best conserved.Sucking the fingers or teeth, picking
the teeth at the table before all are
done eating, gazing about the table
while drinking, tipping back the chair
on two legs, taking any of the dessert,
as fruit, nuts or sweetmeats, away
from the table, is the worst possible
form.

A Man's Arm.

Nowadays it is not the custom for a
woman to lean upon the arm of the
man who is walking beside her during
the daytime, and she seldom accepts
this support after nightfall unless she
is infirm or elderly or the man is her
fiance or husband.

There's a Limit.

A Harrisburg, Pa., professor says
that centipedes are perfectly harm-
less, and that we should pat them on
the back instead of swatting them
with a slipper for the good they do in
this world of ours. This sounds all
right for a short talk on science, but
we know enough about human nature
to imagine what the professor would
do if a centipede jumped from the
headboard of his bed and tried to use
his face for a merry-go-round in the
middle of the night.

Powerful Influence of Bells.

Bells have always exercised a power-
ful influence on the imagination of
poets and writers. Perhaps the best
description of the frenzy of excite-
ment that can be caused by the love
of great bells and by their vibrating,
insistent, compelling tone is that given
by Victor Hugo in his account of
Quasimodo, the deformed bellringer of
Notre Dame.

Might Be a Hint.

A stingy angler was fishing on a
Scottish loch on a pouring wet day.
He had been consoling himself from
his flask and forgetting his gillie. Pres-
ently he asked the gillie if there was
a dry place in the boat on which to
strike a match. "You might try my
throat," said the gillie. "It's dry
enough."—Fishing Gazette.ENTERTAINS FOR

The marriage of Miss Dorothy Honaker to Mr. Fred Morgerson, of Ford Ky., which took place at the residence of Rev. I. J. BREAKS A COLD IN A FEW HOURS

Proves Quinine is Never Effective in the Cure of a Severe Cold or the Grippe.

Nothing else that you can take will break your cold or end grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable neuralgia pains, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Your Nerves

Ask your doctor if alcoholic stimulants are not often kept disastrous when given to nervous people. He will tell you why. Dr. C. A. Ayer & Co., Lowell, Mass.

Your nerves must be fed with pure, rich blood, or there will be trouble. Poorly fed nerves are weak nerves; and weak nerves mean nervousness, neuralgia, headaches, debility. Weak nerves need good food, fresh air, and Ayer's non-alcoholic Sarsaparilla.

LOVELY COMPLEXION

A CLEAR SKIN AND BRIGHT EYES ARE EASY TO GET.

All the beauty dreams in creation won't improve your complexion if your stomach is out of order.

Belching of gas and heartburn means bad food in the stomach. Bad food means bad blood and bad blood means a bad complexion.

Try MI-O-NA stomach tablets for stomach misery, biliousness, dizziness and indigestion. They relieve in a few minutes; they make rich, red blood. They are guaranteed by Phillips to cure or money back.

Read what a Kansas woman says: "I had been doctoring a year for stomach trouble and found nothing that did as much good as MI-O-NA. I only have the second box and they have relieved all pain in my stomach. For stomach trouble or indigestion MI-O-NA can't be beaten. MI-O-NA has done a world of good for me when doctors failed."—Mrs. Cordelia B. Mann, 207 E. 11th St., Junction City, Kans.

MI-O-NA stomach tablets are sold by Phillips and druggists everywhere for 50 cents a large box. Test samples free from Booth's MI-O-NA, Buffalo, N. Y.

BOY'S SCREAMS

BROUGHT AID

Burglar Was Captured After Running Chase By Farmers' Posse in Which Many Shots Were Exchanged.

LOGANSPOUT, Ind., Nov. 15.—Thomas Collins, who is accused of wholesale robberies of homes in Bettelheim and Harrison Township, was captured Sunday afternoon by a farmers' posse after a running fight in which he repeatedly emptied his revolver at his pursuers, who answered his fusillade with shotguns.

When Collins Sunday morning entered the home of James Keesey, Keesey and his wife were at church and their three small children, alone in the house, watched in silence as he rifled the sideboard of silverware. When Collins, in his eagerness to take everything of value, seized a child's toy bank, the six-year-old son of Keesey, to whom it belonged screamed and Frank Frushour, a neighbor, heard his cries. Collins fled through a thicket to the home of James Ferguson, a neighbor, with a hastily-formed posse in pursuit.

The Ferguson home was empty and Collins, lathering his face, started to shave off his beard. In this position he was seen by farmers passing the house and the chase was renewed when Collins, leaping through a rear window, fled across the fields. He surrendered when he had fired his last cartridge. Collins was identified by the child whose bank he had taken.

"If it wasn't for that kid," he told Sheriff Butler, "you wouldn't have me now."

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. Almost always cures.

"Favorite Prescription" is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice.

Some of the numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for cloth-bound copy.

If sick consult the Doctor, free of charge, by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

IN NEW MILLINERY.

Black Satin Hats Are Very Popular, but Commonplace.

TWO OF THE NEW HATS.

Everywhere one goes the inverted flowerpot hat of black satin is sure to be seen. This piece of millinery in artistic hands is wonderfully chic, but when attempted by the great majority it is a cheap imitation of a good mode. A two inch ruffle of white lace peeps from the brim, and the trimming is usually a large, flat bow at the side. What hats have lost this season in circumference they have gained in height, and some of the models are prodigiously tall, but as they are the advance guard of millinery there is every reason to hope that as the season advances they will be modified.

The new hats, though, are very trying to the average woman, for they either sit down over the head, concealing most of her hair, or they flare up abruptly and unbecomingly from her face.

To be sure, there is a certain smartness about them, especially the coronet shapes that have a rather narrow, upstanding brim in front and gradually rise to stupendous heights in the back. A wreath of feathers resembling an Italian chief's war bonnet is the sole trimming.

The all feather toque, although not new, is very smart, and there is one advantage in this model—it cannot be carried out in cheap feathers. Heavier shapes in all colors promise to be popular, and ostrich feathers arranged in high, upstanding groups of three or more add an extra degree of altitude to many smart shapes. It is to be a great season for velvet, both for hat coverings and for trimmings. And in feathers, there is a new effect called the Belgium plume, composed of owl feathers, that is as wild as it is expensive. Fur, too, will be very much used on hats.

She Won Beauty Prize.

An international beauty show was recently held in Folkestone, England. Six women were chosen to compete, and the audience was asked to use their judgment in regard to beauty, grace and dignity in the selection of the winner. Competitors were

MISS KATIE DARLING.

present from Paris, Naples, Belgium and Valencia. Miss Katie Darling, whose picture is here shown, was the successful beauty winner. Miss Darling is only seventeen years of age. She is fair, dresses simply and wears her hair in long plaits on either side of her head. She has posed as an artist's model. If America had sent a representative, Miss Kitty very likely would have been out of the running.

An Embarrassing Habit. Biccoughs are distinctly mortifying to the victim. As they are signs of poor digestion and may mean bad stomach trouble, it is of frequent occurrence, they should be treated medicinally.

For temporary cures try gradually dissolving a small lump of sugar on the tongue. Sipping of hot water is also good or gargling the throat with ice water.

MARKETS

CHICAGO, Nov. 14.—WHEAT—Efforts of elevator people to change hedges over into May contracts last week and the move on the part of owners in cash wheat in the southwest to move it forward so as to reach lake ports before the close of navigation combined to give the wheat trade a stirring up which was not easy to understand at the time. There may be more of this business this week. Primary receipts of this country have fallen off enough to cause short sellers to get a little slow. For the present it is a good fighting market with the changing operations the principal feature.

CORN—The country never had such a supply of corn in sight as now. Advances indicate that present prices are unsatisfactory to farmers but as the country becomes accustomed to the lower level and the big crop is entirely secured with fine weather this month there is little doubt that a liberal marketing of the enormous surplus of the year will begin. As far as May year is concerned the conditions suggest sales on swells for some further depression.

OATS—This market will respond to any decline in corn.

PROVISIONS—Gelt says 20,000 hogs are on the market against 20,000 last year. The provision market is getting a little more active as a result of the improved outside trade. The opinions differ as regards its future action.

COUNT TOLSTOI SERIOUSLY ILL

Mental Anguish of the Patient Handicaps the Effort of Physicians to Reduce the Fever.

TULA, Russia, Nov. 15.—Broken down by the hardships of a winter journey, mental strain and a rupture with his family, Count Leo Tolstoy lies with a high fever in the little railroad station at Asatopova, 80 miles from his home in Poliana. Tolstoy is attended by Dr. Mekovetsky, who was his sole companion when he left his peasant hut a few days ago and carried along with him medicaments for just such an emergency. Tolstoy's daughter, Alexandria, is acting as his nurse.

Telegraphic reports of his condition are considered extremely pessimistic. His temperature is 104 indicating probably a serious congestion, and of itself an alarming symptom in one of Tolstoy's years. The mental anguish of the patient handicaps the efforts of the physicians to reduce the fever. Even if Tolstoy recovers there can be no question of his continuing the journey to the Caucasus where he hopes to end his life among the Tolstoyan colony on the shores of the Black Sea.
